## EDUCATION

**New England Institute of Art**

*Brookline, MA*

B.S. in Audio & Media Technology

## PROFESSIONAL SUMMARY

Creative professional with 10+ years of web design & front-end development experience in a professional agency setting. Managed a cross-functional team of designers & developers to create award-winning custom websites for the private club industry.

## WORK EXPERIENCE

**Creative Manager**

*MembersFirst - Wayland, MA* *August 2016 - present*

Designed highly detailed WCAG-compliant website mockups & prototypes in Figma and Sketch with strong proficiency in the Adobe Creative product suite.

- Developed client brands by guiding decision makers & project stakeholders towards a clear visual identity through strong understanding of typography, color, and composition.

  Owned complex web projects with extended customer journeys including site-mapping, wireframes, navigation experience, form submission flows, and multi-step booking & reservation modules.

- Delivered clean production code (HTML, CSS, and JavaScript) with high proficiency and conducted internal code reviews to maintain team coding standards, brainstorm ideas, and drive innovation.

  Led initiatives to identify efficiency gaps in our processes and implement quality-of-life improvements resulting in faster launches, multiple quarters of record-breaking revenue, and all-time net promoter scores.

- Owned the conception, research, development, and launch of new products in addition to incorporating client feedback to improve existing products.

- Developed shared design systems and components libraries that leverage AI to translate design elements into production code.

**Data Analyst**

*The Ives Group - Sutton, MA* *August 2012 - August 2016*

Managed SQL databases of financial disclosure data for subscription accounting reporting software.

- Created basic layouts & charts to organize data for research presentations to management.

- Worked collaboratively with other research teams to coordinate project hand-offs and manage scheduling.

**Technical Support II**

*Bose Corporation - Westborough, MA* *August 2010 - August 2012*

Resolved technical support cases for over 100 consumer audio products ranging from headphones to multi-room home theater systems.

- Diagnosed complex software & hardware problems while handling stressful situations with empathy & patience.
