EDUCATION

New England Institute of Art

Brookline, MA

B.S. in Audio & Media Technology

WORK EXPERIENCE

Creative Manager

MembersFirst *August 2016 - present*

Began as an entry-level designer, grew into the role of Lead Designer, and entered a management role in 2022.

- Managed a team of designers & front-end developers to create award-winning custom websites for the private club industry.
- Designed highly detailed website mockups & prototypes in Figma and Sketch with strong proficiency in the Adobe Creative product suite.

Developed client brands & aesthetics by guiding decision makers and project stakeholders towards a clear design direction.

- Generated clean production code with high proficiency and conducted internal code reviews to maintain team coding standards, brainstorm ideas, and drive innovation.
- Led initiatives to identify efficiency gaps in our processes and implement quality-of-life improvements resulting in faster launches, multiple quarters of record-breaking revenue, and all-time net promoter scores.

Collaborated with cross-functional teams to develop new products and incorporated client feedback to enhance existing products.

Data Analyst

The Ives Group *August 2012 - August 2016*

Managed SQL databases of financial disclosure data for subscription accounting reporting software.

- Created basic layouts & charts to organize data and present research to management.
- Worked collaboratively with other research teams to coordinate project hand-offs and manage scheduling.

Technical Support II

Bose Corporation *August 2010 - August 2012*

Resolved technical support cases for over 100 consumer audio products ranging from headphones to multi-room home theater systems.

- Diagnosed complex software & hardware problems while handling stressful situations with empathy and patience.
